- Climate
- Farmworker Overtime
- Gun Violence
- Transforming Justice

Join us on Jan. 23 from 1:30 to 3:30 p.m. for an overview of legislative issues of concern to the faith community. We will cover a lot of territory in a brief time. Our goal is to have legislators inform the audience of the issues facing the legislature in the coming session. The above topics may be supplemented with others as legislators give updates.

Register now for the free Zoom conference at bit.ly/2022forumregister.

After registering, you will receive a confirmation email containing information about joining the meeting. We will also provide an update to those who have registered when we have confirmation of speakers. We will send a reminder to those who have registered a week before and the morning of the conference.
