Horizon for Palestine and Israel**
Dr. Mark Braverman

Monday, February 12, 2024 /6:30 – 8:30 PM

Mark is a Jewish American author, speaker and activist well-known to the Portland community, and Executive Director of Kairos USA. He was raised with a strong attachment to Israel but came to understand the terrible costs of the Zionist project for both the Palestinian and Jewish peoples. Mark will discuss:

- The context for October 7th -- Jewish history, Zionism, and Palestinian resistance
- The current furor over antisemitism – What does it mean why it is significant.
- The church, colonialism and why the church matters today
- The U.S. political landscape -- encountering our settler-colonial DNA.
- What's next -- return to the status quo or a new future from the river to the sea?
